BLUETOOTH CAR HANDSFREE USAGE MADE EASY

Blueant Wireless has taken handsfree mobile communication to the next level with the introduction of the EzyTalk Bluetooth Plug and Go Handsfree. At \$169.00 this totally transferable, wireless handsfree kit is easily installed in three seconds by plugging the unit into the vehicle cigarette lighter.

Blueant Wireless Managing Director, Taisen Maddern, says, "Mobile phone use in cars is inevitable in the modern age but EzyTalk makes it easier and therefore safer to make and receive calls thanks to advanced Bluetooth enabled technology. There are no external wires whatsoever and it's priced to make it affordable to the growing number of Bluetooth mobile users across Australia."

The EzyTalk is easily paired with Bluetooth enabled mobiles and features automatic answer on/off button, support for voice dialing, volume control, call mute and last number redial.

Released into the Australian market by leading mobile communication hardware provider, Blueant Wireless, the EzyTalk is supported by Blueant's committed customer service and 24 month hardware warranty.

This revolutionary product also delivers:

- **Fully integrated technology - all contained in a modern, compact design - with no external microphone.**
- **Completely portable, wireless handsfree installed easily by plugging into the car cigarette lighter.**
- **Automatically connects to the phone when the car power is turned on**
- **High quality sound with filtered microphone input and speaker output.**
- **Offers increased safety with capability for automatic answer after 2 to 3 rings - no need to take your hands off the wheel while keeping radiation away from the head.**
- **Also supports one touch voice command dialing and one touch redial if supported by the Bluetooth mobile.**

The EzyTalk Bluetooth Plug and Go Handsfree is compatible with any Bluetooth mobile phone or PDA device.

Visit www.blueant.com.au for detailed product information and specifications as well as information regarding Blueant, Bluetooth technology and its entire range of wireless products.

The EzyTalk is available for review purposes.
